TriMen Chemicals S.A.  
Al. Pilsudskiego  
4192-318 LODZ Poland

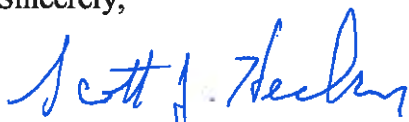

Dear Jacek:

It is a pleasure to acknowledge the fine service Rempex Pharmaceuticals and its predecessor Mpex have received from TriMen over the last several years. What began as a program focused on synthesis of peptidic compounds evolved over time to cover numerous chemotypes. We have benefitted greatly from the broad synthetic expertise of your staff, and also from their familiarity with developing analytical methods.

We very much appreciate the diligence and dedication demonstrated by the TriMen team. The keen desire to make the chemistry perform and to deliver pure compounds in a timely way has been consistently evident in our weekly teleconferences. In addition, the experience and knowledge of your leaders has contributed greatly to the success of our program, particularly when facing uncooperative chemistry.

I look forward to many future opportunities to collaborate!

Sincerely,

Scott J. Hecker, Ph.D.  
Vice President, Chemistry
